

Continuing Professional Development Information Sheet

BY DR SOPHIE BROCK
SOCIOLOGIST
PHD, THE UNIVERSITY OF SYDNEY

ENDORSEMENTS

Professor Andrea O'Reilly

Founder of Motherhood Studies
School of Gender, Sexuality and
Women's Studies
York University, Canada

"This course you're doing Sophie is so important and so amazing, it really is. I just wish everybody would take it - and not just mothers. Social workers, doctors, nurses. I wish everyone would take a 10 week mandatory course on motherhood, because I think everyone would think - wow I had never realized that, I never thought about that, how different my perceptions are now than they were 10 weeks ago. So it is an intervention into the master narrative - what you are doing."

Dr Haya Zedan

Vice Dean of Graduate Studies and
Scientific Research
Saudi Electronic University, Riyadh,
Saudi Arabia

"Working with Sophie was an amazing experience. She has an awe-inspiring depth and command of this knowledge. The course both centered and enlightened me. I felt the concepts that were discussed and their applicability to my own motherhood journey so deeply and appreciated their universality. I look forward to the potential to bring motherhood studies further out in the world, with Sophie and my fellow practitioners. Every mother or person who works with mothers should know this!"
